POWER SUPPLY

ECTACO® jetBook® is powered by a special Li-ion polymer rechargeable battery.

✓ The battery is not user-replaceable.

Power On / Power Off

- When the device is powered off, press and hold the *On/Off* button for 3 seconds to turn it on.

✓ It may take about 1 minute for the device to start up.

- When the device is powered on, press and hold the *On/Off* button for 3 seconds to turn it off.

Standby Mode

- When the device is on, press and instantly release the *On/Off* button. The device will enter standby mode. The LCD will be switched off.

- When in standby mode, press and instantly release the *On/Off* button to resume operation.

Recharging the Battery

ECTACO® jetBook® can operate continuously for over 24 hours. When the battery becomes weak, the battery life picture is shown as ⎡⎯⎤. To restore full functionality of the device, recharge the battery as soon as possible.

We recommend that you recharge your jetBook® at night during at least four hours.

✓ Only a special charger may be used with your ECTACO® jetBook®. **Use of an inappropriate external power supply may cause failure of the device and will void the warranty.**

• Unfasten the mini-USB port cover.

• Connect the AC/DC adapter to your device via the mini-USB port (see *General View*). The green LED signal shows that the battery is recharging. It normally takes 5 hours to recharge a depleted battery.

You can also recharge the battery using the supplied USB cable. However, it is recommended that you use the special charger.

Initialization

In the rare event that the data on the screen is corrupted or a program is not responding properly, you will need to perform a reset. The *Reset* button is located on the back of the device. It can be accessed with any thin object like a paper clip. Never use a needle or a sharp pin for this purpose since it can damage the device.

• After pressing the *Reset* button, press and hold the *On/Off* button for 3 seconds to turn the device on.

INSTALLING SD CARD

ECTACO® jetBook® supports SD cards of up to 2GB capacity for storing thousands of books.

- Unfasten the SD slot cover.
- If the card is not installed, slide it into the slot – the contacts of the card face up, label face down. Push the card gently until it clicks into place.
- To eject the card, just push it in slightly.
