CONVERTING BOOKS

The conversion is performed on your computer. There are many programs suitable for this purpose. For example, *Calibre* or *Book Designer*.

For more information on file converters and an instructional video on how conversions are done please visit **www.jetbook.net**.

If your book is a PDF file consisting of images (for example, scanned pages), the conversion may fail. In this case, try to find it in a format other than PDF, or use OCR software to convert it into a .txt file.

Using Calibre

After the program is installed, start "*calibre - E-book management*" from "*Start*" / "*All Programs*" / "*calibre - E-book Management*".

- Click the "*Add Books*" button in the top left corner of the application's main window.
- Select the book of your choice.
- ✓ You can select multiple books by holding down the CTRL key while clicking.
- Click "*Open*". The book title will show up in the application's main window.
- Click the "*Convert books*" button and then, in the top right corner of the "*Convert*" window, specify the "*Output format*". Select "*TXT*" or "*FB2*".
- Click "*OK*" to launch the conversion process.

When the conversion process is finished, right-click the book title in the application's main window, and then select "*Open containing folder*" in the menu that appears. You will see your book in TXT or FB2 format.

Using Book Designer

- Run the program and then use the "*File*" / "*Open book*" dialog to open the book of your choice.
- The book's text will show up in the application's main window.
- Use the "*File*" / "*Save as*" dialog to save the book in TXT format. When saving, select the "*Text files (*.txt)*" option.

TRANSFERRING BOOKS

The USB mass storage capability allows you to copy electronic books to your device.

- Turn your device and PC on.
- Connect ECTACO® jetBook®**mini** to your computer using the supplied USB cable. Shielded cables with ferrite must be used with this device to ensure compliance with the class B FCC limits.

You will see the "*Removable Disk*" popup, and one removable disk icon (if no SD card is installed) or two removable disk icons (if an SD card is installed) will appear in the "*My Computer*" window.

- In the "*My Computer*" window, double-click the removable disk icon.
- Copy your files to the respective folders.
- ✓ Allow at least 1% of total disk space to store the index files (.idx) created by the device.
- To disconnect ECTACO® jetBook®**mini** from your computer, click the "*Safely Remove Hardware*" icon at the bottom right of the screen and then select "*Safely remove USB Mass Storage Device*" in the menu that appears.
- In the "*eBooks*" list, you will see the books you have copied and the preinstalled books, if any.
